

# Alternative Energy Development

A

Albert Kahn Associates, Inc. (AKA), in conjunction with DMA Technical Services, Inc. (DMA), offers design engineering, safety engineering and project management services for a wide range of sustainable and renewable energy applications, with a special focus on alternative energy infrastructure.

Our joint experience in compressed natural gas and hydrogen vehicle fueling, electrical generation systems, as well as hydrogen / compressed natural gas blends (H<sub>2</sub>CNG or HCNG) is extensive, and includes projects for clients located around the world. Our global perspective allows for benchmarking of facilities worldwide, bringing unparalleled knowledge to bear in this growing international industry.

Our services are delivered through integrated engineering disciplines including mechanical, electrical and controls, civil and structural, architectural, environmental, geotechnical, code compliance and safety.

## Representative Clients

Archer Daniels Midland  
Atomic Energy Canada  
Burlington Transit  
CleanEnergy  
DaimlerChrysler  
DENSO Manufacturing  
DTE Energy Technologies  
Dynetek Industries  
Enbridge Consumers Gas  
Ford Motor Company  
Fuel Maker Corp.  
Hamilton Street Railway Corp.  
HydroGenics  
NextEnergy  
Noranda Mining & Exploration  
Stuart Energy Systems  
Trillium Energy Canada  
Trojan Technologies  
Union Gas Limited  
Westport Innovations  
West Coast Energy International

## Alternative Energy Applications

- Transportation
  - Hydrogen
  - Natural Gas
  - Hydrogen/Compressed Natural Gas Blend
- Power
  - Alternative Fuels
  - Solar Power
  - Wind Power
  - Water Power

## Alternative Energy Services

- Engineering Services
- System Integration
- Project Management
- Project Economics
- Funding and Tax Credits
- Training
- Operations and Maintenance
- Database Development
- Jurisdictional Liaison
